		liameter > 1 inch		(10) Free use permit sometimes required in large burn areas					

(2) Matsutakes must be cut in half vertically, 12 maximum

(11) See current Wenatchee National Forest Woodcutting Map for LSR (12) Recent fire location data is available on guide or at district offices

(3) One large mushroom that exceeds daily limit may be kept

(4) See web pages, signs and travel plan maps for seasonal and special closures; see signs in area for botanical area closures

(5) Special forest products harvest map are available - paper only; wilderness, RNAs, campgrounds, & administrative sites are closed

(6) All NAP, Mt. Si, Woodard Bay and all Olympic region NRCA are closed; Some NRCA site plans allow it; call site manager

(7) Pick only edibles (mushrooms, berries, nuts, etc.), other restrictions should be posted but often aren't, see manager

(8) Limit may be divided between more than one 2 week permit, 1 gallon per day does not require permit

(9) All Matsutake (pine) mushroom harvesting requires a commercial permit

General Rules as of 11/6/2012:

This summary of guides, permits, e-mails and phone calls prior to the date above is not a legal interpretation Daily limit is also the per person possession and transport limit

Rakes, leaf blowers or other ground disturbing devices/animals are prohibited, divots must be replaced Only individual free personal use rules are listed (mushrooms must not be sold, bartered or given away) Group and commercial harvesting require permits and have different regulations which are not included here Keep permit in possession, enter product quantity removal record date at arrival, complete before leaving (in ink) Motorized vehicles are not allowed off existing roads that are open to the public, do not block gates or roads Permits, guides and maps are available at district offices or the web links in the table

Do not collect sensitive species:

Forest Service Bureau of Land Management Sensitive Plant List Theatened, Endangwered and Sensitive Species List Stategic Species List

State Law:

http://apps.leg.wa.gov/RCW/default.aspx?cite=76.48

76.48.021: ... (21) "Specialized forest products" means the following: ...(f) More than five United States gallons of wild edible mushrooms. ...

State Parks Reg. (WAC 352-28-030):

http://apps.leg.wa.gov/wac/default.aspx?cite=352-28-030

Personal consumption: The recreational harvest, possession, or transport of edible plants and edible fruiting bodies including, but not limited to, mushrooms, berries, and nuts, is allowed up to an amount of two gallons per person per day, unless otherwise posted at the park. The harvest amount may be comprised of one or more species. The harvest may occur within the following park classification areas: Recreation, resource recreation, natural, natural forest, heritage, or in parks not yet classified. No harvest of edible plants or edible fruiting bodies, including mushrooms, is allowed within a natural area preserve. Harvest techniques that involve raking or other techniques that have the potential to degrade park natural or cultural resources are prohibited. The director or designee may close, temporarily close, or condition public access to certain park areas for recreational harvesting of edibles upon finding that the activity degrades or threatens to degrade the park's natural or cultural resources, or to protect public health, safety, and welfare. Such closure shall be posted at the entrance to the park area affected and at the park office.

Mushroom picking etiquette:

Due to the delicate life cycle of mushrooms there are a few things you can do to protect the species in your favorite areas. These few steps may help to sustain your mushroom picking pleasure into the future: 1) Pick only two-thirds of the mushrooms you find. Do not collect mushrooms from previously harvested areas; leave the rest for seed (spores) and food for wildlife. 2) Minimize the impacts to the actual fungus by not disturbing the ground habitat. This means do not use rakes, dogs, pigs or other methods to dig mushrooms. Use rock & twist, pop or cut at or above ground level. Aviod collecting in campgrounds or along trails. Should not drive on water-saturated, muddy roads.
