

- JUNE MEETING** Monday night, June 14th, 8:00 pm, Eames Theatre, Pacific Science Center. This last meeting before our summer recess will be your opportunity to meet and exchange lies with your fellow members at a coffee social. Name tags will be issued so you'll know whom you are talking to. Color slides and movies of last month's field trip will be shown, and the stars will be present for autographs.
- BULLETIN WILL CONTINUE** To keep everyone up to date on happenings and coming events, and also because the Board has so directed, this bulletin will continue to be published through the long, hot summer months. Your Editor has led a blameless life to no avail, and will be denied his vacation notwithstanding. Our argument that the members need a vacation from the Bulletin was received coldly by the Board. Next month, we will publish a field report form for Agaricus species, with an easy check-list format for convenient reporting of specimens pertaining to our Agaricus Project. News about the Fall Exhibit and the Fall Field Trip will be reported in upcoming issues. To defend against man-bites-dog type fillers during the summer doldrums, items of interest from the members will be welcome.
- DUES CHANGE** To simplify bookkeeping, the Board has decided to change the renewal date for memberships to an annual year basis. January 1st will become the renewal date. New memberships entered after July 1st will pay one-half of the annual rate for the balance of the year. Time of elections and the annual meeting will not be affected.
- HISTORIAN ASKS HELP** George Tokuda, Board Member assigned the portfolio of Historian, asks assistance of the members in collecting news material pertaining to the Society's activities and to mushroom matters in general for incorporation into his records. We have acquired, with Elsie Burkman's assistance, a handsome leather-bound scrapbook for keeping of such historical materials.
- 1965 MUSHROOM EXHIBIT** Our 1965 Show will take place October 16 and 17 in the Eames Theatre. Under the General Chairmanship of Ann Mack, we are planning a larger and more comprehensive exhibit. A few choice committee positions remain to be filled. Members wanting to be a part of the fun can sign up during the coming meeting. Volunteers too eager to wait can call Mrs. Mack at LA 2-7348.
- A general meeting of the Board, the Exhibit Committee, and all interested members will be held Monday, June 21st, 8:00 pm at the Science Center Office. We will be brainstorming ideas for improving and expanding the content of the Show, so anyone with ideas to drop into the hopper is welcome.
- SECRETARY** The absence of Kay Ladue, missing on a flight over the Cascades with Wing Luke and Sidney Gerber, is grievous to those of us who know her as a cheerful and dedicated secretary to our Society. We all hope and pray that she and her companions will yet be found safe. During her absence, Connie Wood has been helping with the paper work, and Hwa-di Woo has consented to serve as temporary Secretary.

See you all at the coffee hour,

Ed. - Ben Woo
