

PUGET SOUND MYCOLOGICAL SOCIETY BULLETIN

Bulletin No. 22

May 1966

MAY MEETING - - - - - Monday May 9. The program will conclude the identification course, with the final session given by Dr. Morton Bassan and Dr. Russ Kurtz. There will be copies of all the material from the course available. There will be some organization of committees, etc., and identification will be made, as usual, after the meeting.

DINNER PLANS - - - - - Further discussion of plans for next years dinner brought up some unexpected difficulties with the result that I have, although reluctantly, decided to abandon the attempt to collect mushrooms for use with the dinner, I still hope to carry out other parts of the project.

FIELD TRIP - - - - - Difinitely set for May 22, with headquarters at the Lake Wenatchee State Park. A map is enclosed. Chairman for field trip committee is Ted Riggs, with George Rafanelli assisting; volunteers welcome.

DUES - - - - - Connie Wood has been too busy to sort out the delinquents, so they will receive the bulletin after all.

SLIDES - - - - - Please return any slides you may have borrowed and forgotten to return. See Dick Black. Also, some of Dr. Stuntz slides are missing, and he would like to have them back, if anyone has them. The Board has decided to purchase a slide cabinet, which will facilitate using them, and we hope returning them also!

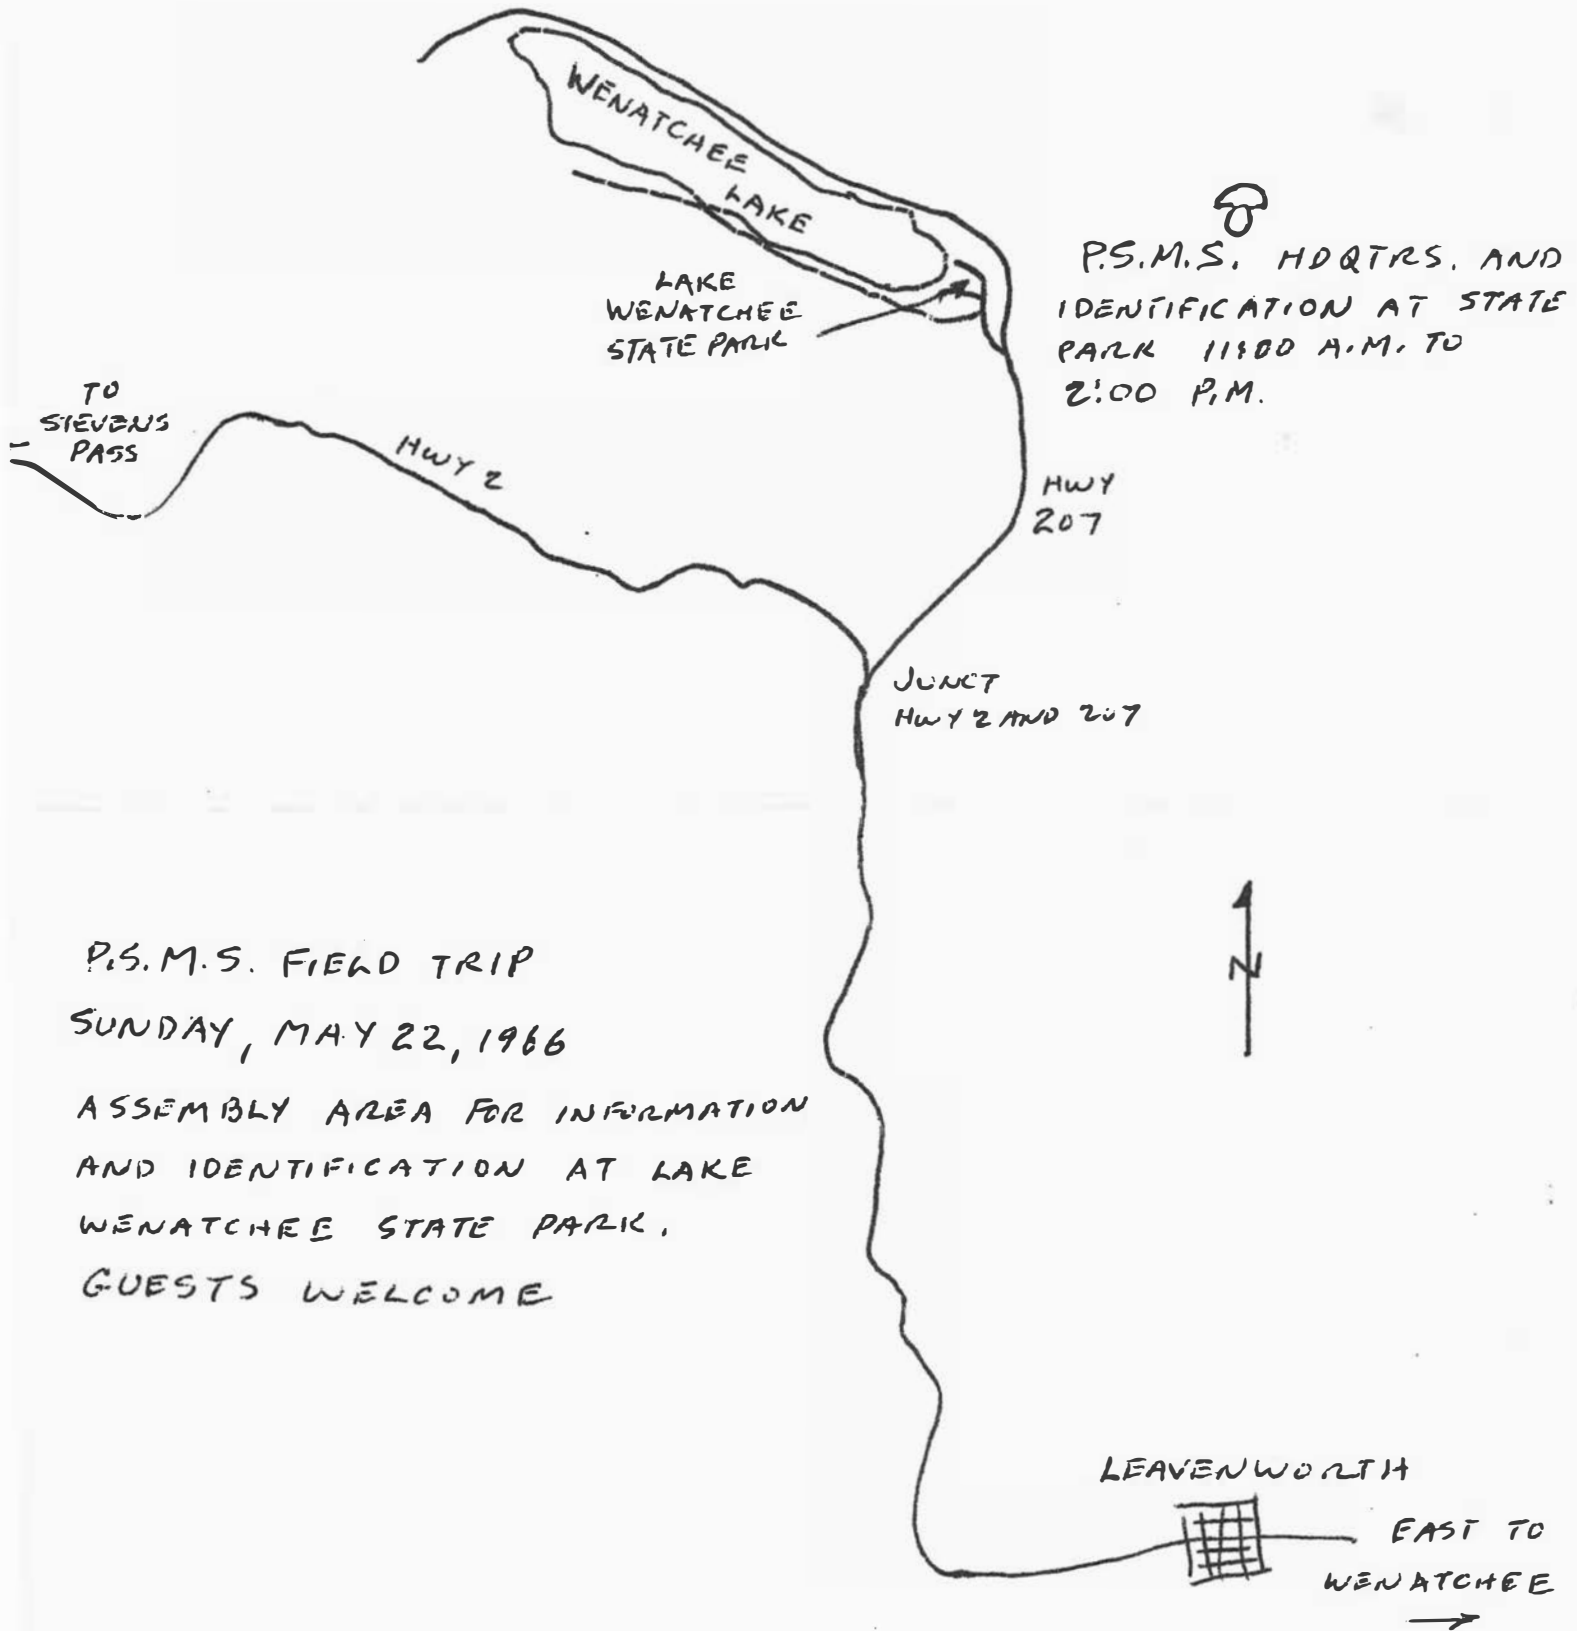

SCIENCE CENTER - - - - - The Pacific Science Center has plans for a publication, and we have been asked to contribute an article each issue. There will be 10 issues per year, and it will cost \$2.00 per year if we can get 25 subscriptions. Otherwise, it will be \$2.50 per year. We should be able to muster a club subscription.

The Society extends its sympathy to Jay France for the loss of his wife, Phyllis, who was an active member of our group.

Your Editor

Charles D. Volz.
